PART I – ANNUAL RESULTS

A flock of approximately 18 birds is flying in a V-formation against a clear blue sky. The birds are silhouetted, and their wings are spread, creating a sense of movement and direction. The formation is a classic V-shape, with the lead bird at the front and others following in a staggered pattern.

FY21 OVERVIEW

FY21 Overview

The COVID-19 pandemic has had an immense impact on the aviation industry, borne out in MAG's results for FY21. However, the last year has seen swift, decisive steps taken by MAG's management to reduce costs and place the business in the strongest possible position to return to growth as international travel resumes in earnest.

6.3 million passengers (-89.4%) driving a reduction in revenue to £178.6m (-80.%)

EBITDA of -£149.4m (compared with +£382.1m for FY20)

Operational costs savings in excess of £189m achieved to minimise impact of lost revenue. Main transformation programmes paused and freeze on all other growth and non-essential maintenance expenditure

Capex spend of £154.0m (-71.5%) including costs to complete the MAN T2 extension, existing phases of STN TP and opening of a new 8,000 space multi-story car park

Strong liquidity position supported by £300m of new shareholder capital and £400m sale of non-core property portfolio and 50% holding in Airport City JV

Stable financing platform with no refinancing requirements until 2023. Fitch and Moody's reaffirmed ratings of BBB+ and Baa1

Completed acquisition of US car parking distribution and other airport service business that was agreed pre-COVID. Synergies with MAG-O - our technology and e-commerce business - continue to develop and drive improvements in airport experience and MAG's digital footprint

Well positioned for strong rebound during the recovery phase – spare runway capacity, well invested infrastructure and a right sized business

The Chancellor of the Exchequer announced eight new freeports. The East Midlands Freeport with potential to boost trade, create 60,000 jobs and attract investment across the region

MAG continues to meet standards for disclosures established by the Global Reporting Initiative responding to recommendations from the Task Force on Climate-Related Financial Disclosures. Demonstrates the focus on the risks posed by climate change and ensuring our strategic and CSR reporting reflect the ESG needs of investors

A blue-tinted image of an airplane cockpit. The four main windows of the cockpit display various world landmarks: St. Basil's Cathedral in Moscow, Christ the Redeemer in Rio de Janeiro, the Oriental Pearl Tower in Shanghai, and the Taj Mahal in India. The text 'PASSENGER GROWTH & COMMERCIAL DEVELOPMENT' is overlaid in white, bold, sans-serif capital letters across the center of the image.

PASSENGER GROWTH & COMMERCIAL DEVELOPMENT

Commercial Strategy Provides Strong Base For Recovery

The outturn passenger reduction of 89.4% is in line with the contraction seen in the UK market. MAG previously highlighted that financial performance in FY21 would be primarily driven by Government policy on international air travel restrictions and this remains the key issue. MAG's underlying fundamentals and solid commercial growth strategy positions MAG well heading into the recovery phase.

- International travel was all but suspended as the pandemic took hold in the spring of 2020.
 - The Government's 'travel corridor' scheme, which was introduced in June 2020, resulted in a brief but noticeable increase in passengers over the summer period.
 - However, short notice changes to the list of travel corridors had a serious impact on consumer confidence and traffic between July and September was still 80% down on the previous year.
 - Since January 2021, the Government sought to limit the spread of new variants by restricting travel to a limited number of essential journeys and in May began to lift certain restrictions with the implementation of the Global Travel Taskforce Traffic Light System.
 - MAG is particularly well-placed to recover quickly when conditions allow.
- ✓ Robust finances and the support of our investors gives flexibility on our approach to the sector's recovery over the initial months
 - ✓ Recovery expected to be strongest in short-haul, low-cost markets and services to popular leisure destinations – a strong point for MAG's customer demographic and our airport catchments
 - ✓ Success of UK vaccine rollout together with the gathering pace of Global rollouts and pent up demand

Note: For a reconciliation between MAHL and MAGIL FY21 Annual Results see Appendix on Page 30

TRADING PERFORMANCE

FY21 EBITDA

EBITDA has fallen from +£382.1m to -£149.4m in the year to March. EBITDA reductions primarily mirror the reduction in passenger numbers with the exception of East Midlands which achieved EBITDA of £5.5m owing to strong cargo performance.

Source: MAHL FY21 Annual Report & Accounts

Note: For a reconciliation between MAHL and MAGIL FY21 Annual Results see Appendix on Page 30

FY21 Trading Performance

Group EBITDA down by £532 million from +£382.1 million to -£149.4 million. Revenue reduction of £715m has been offset by cost reduction activities which have delivered £183m of savings.

Group Income Statement

£m	Group FY21	Group FY20	Variance (£)	Variance (%)
Aeronautical	74.3	361.2	(286.9)	(79.4%)
Retail	16.2	200.0	(183.8)	(91.9%)
Car Parking	39.5	234.8	(195.3)	(83.2%)
Property	20.5	18.7	+1.8	+9.6%
Other	28.1	78.7	(50.6)	(64.3%)
Revenue	178.6	893.4	(714.8)	(80.0%)
Employee costs	(145.0)	(265.4)	+120.4	+45.4%
Non-employee costs	(182.9)	(245.9)	+63.0	+25.6%
Operating Costs	(327.9)	(511.3)	+183.4	+35.9%
Disposal of fixed assets	(0.1)	-	(0.1)	N/A
EBITDA - Continuing	(149.4)	382.1	(531.5)	(139.1%)
EBITDA - Discontinuing	7.9	25.4	(17.5)	(68.9%)

Aeronautical revenue

- **Aeronautical yields increased 95%** driven by cargo performance. Underlying increase of 7.5% per pax excluding cargo

Retail

- 400,000+ sqft retail space with over 50 operators. Reduction in retail performance driven by the temporary closure of many retail units.

Car Parking

- Market-leading analytics, e-commerce, marketing and trading expertise - supported by the acquisition of L4P and SPS.
- Temporary car park closures to match demand. **Yield increase of 59%** due to higher 'turn-up' proportion.

Operating Costs

- Operating costs decrease of £183.4m (36%). £120m of employee costs reduction activities including utilisation of CJRS, streamlining of employees by over 30% and 10% pay reduction.
- Other opex savings of £63m include discretionary spend, AGOSS grant, rent and utilities and close management of maintenance activities.
- Cost savings measures implemented are designed to flow through to the recovery phases as passenger numbers rebound.

Note: For a reconciliation between MAHL and MAGIL FY21 Annual Results see Appendix on Page 30

CAPITAL INVESTMENT

FY21 Capital Investment

Significant investment has been completed in the last three years and MAG's modern infrastructure will be an important component of a strong recovery. Following the outbreak of COVID-19, MAG has reduced and refocussed expenditure on its capital projects given the reduction in passenger demand expected in the near term. MANTP Phase 2, being the main change. The main structure, including the terminal extension, has been completed this year. Phase 3 will be revisited post recovery.

Well invested existing assets with a discretionary growth plan triggered by demand

MAN has 2 full length runways (LHR is the only other UK airport with more than 1 such runway). STN has spare runway capacity and is well positioned to support the London system.

MAN TP Terminal 2 Extension completed and ready for opening. Subsequent phases will be deferred until the economic environment normalises.

STN transformation programme Phase 1 completed including opening of new check in desks and multi-storey carpark.

Investment in hold baggage screening, IT infrastructure, back-office systems and software to support growth and manage assets more efficiently.

To meet future demand MAG has completed construction of 8,000 additional car parking spaces, believed to be the largest car park in Europe.

Capital Investment (£m)

Note: Growth capex includes capitalised borrowing costs of MANTP and STP

A high-angle, black and white photograph of a young child standing on a dark, textured surface like asphalt. The child is wearing a dark leather flight jacket with a fur-lined collar, light-colored cargo pants, and a flight helmet with goggles. They are holding a small model airplane aloft in their right hand. The child's shadow is cast long and dark to the right. The text 'MAN TRANSFORMATION PROGRAMME' is overlaid in large, white, sans-serif capital letters on the left side of the image.

MAN TRANSFORMATION PROGRAMME

MANTP Progress Update

The MAN TP masterplan will increase MAN's overall capacity to 55m passengers which will align the terminal capacity to match the capacity of MAN's two runways. As at March 2021 £873.9 million invested, in line with budget . The Terminal 2 Extension is complete and operationally ready for opening, marking a major milestone of this landmark project.

Corporate social responsibility

This has been a challenging year for us all: MAG, our colleagues, our communities, and the wider aviation industry. However, we remain confident that our 2020 Corporate Social Responsibility (CSR) Strategy 'Working together for a brighter future', remains appropriate and achievable. This year we have built the foundation for a sustainable recovery.

STRATEGIC PRIORITY 1: ZERO CARBON AIRPORTS

MAG airports to be net zero carbon by no later than 2038

Transition to a fleet of ultra-low emission vehicles by 2030

STRATEGIC PRIORITY 2: OPPORTUNITY FOR ALL

An Employment Charter to ensure all colleagues can achieve their full potential

Airport Academies will support a minimum of 7,500 people over the next five years

STRATEGIC PRIORITY 3: LOCAL VOICES

New methods of consultation including youth forums at every airport

30% of colleagues to participate in local volunteering programmes

SUPPORTING OUR COLLEAGUES AND COMMUNITIES THROUGH COVID-19

23,000
volunteering
hours

£253,000
Community
grant funding

Outplacement
support to
1,200
colleagues

RESPONDING TO THE CLIMATE CHALLENGE

- All our airports are **carbon neutral**, and our CSR strategy targets **net 'Zero Carbon Airports' no later than 2038**.
- This year MAG launched a million pound zero-emission flight competition.
- MAG is a **founding member of the Government's Jet Zero Council**, chaired jointly by the Secretaries of State for Transport and BEIS.
- Our Annual Report is now aligned with recommendations of the **task force on climate-related financial disclosures (TCFD)**.
- This year MAG will undertake its third round of **climate change adaptation risk assessments**, reporting to Government in the autumn.
- FT Top 300 **climate leaders** – ranked in **top 30** and **highest transport organisation**.

FINANCING

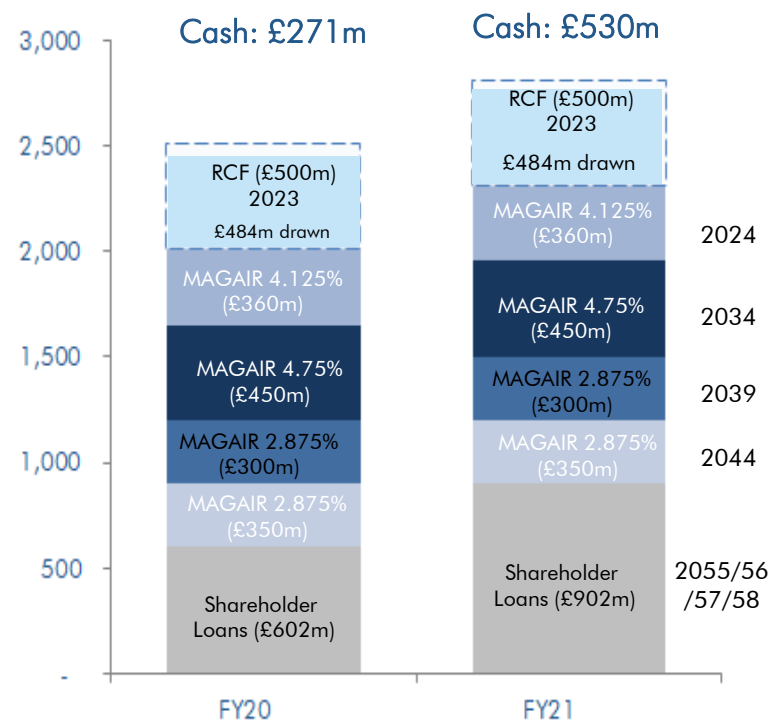

Flexible long-term funding platform

The £500m RCF and £90m LF supports the continued growth of the business. Financing strategy to access the capital markets for medium and long-term lending to support growth and investment. Shareholders injected £300m which together with the £400m property disposal supported liquidity and leverage through the pandemic.

Increased facilities for growth

- Bank facilities comprise a £500 million revolving credit facility and £90 million in standby liquidity facilities.
 - maturing in June 2023.
 - LF providing committed 12 months of interest cover supporting MAG's listed bonds and other credit facilities.
- £484m drawn on RCF at March 2021. Drawdown in full in response to COVID-19 to provide liquidity protection.
- Injection of £300m from shareholders in June 2020 provides strong support to enable MAG to successfully maintain adequate funding headroom throughout the pandemic and to position itself to benefit from a return to normalised demand and restart growth activities.
- £400m sale of MAG's non-core property portfolio and 50% holding in Airport City JV in August with an additional £59m in October to complete the disposal programme.
- Strong liquidity position with cash of £530m at 31 March 2021.

Flexible, long-term financial structure with headroom

Cashflow

Despite the impact of COVID MAG's financing response has been strong resulting in a net increase in cash of £259m

Group Cash Flow Statement			Commentary
£m	FY21	FY20	
Cash generated from operations (before significant items)	(188.7)	402.5	<ul style="list-style-type: none"> Cash generated from operations down by £591.2m from £402.5m to -£188.7m. Reduction in interest paid of £31.1m with £88m of interest on shareholder loans deferred in the period. Total shareholder interest deferred since the start of the pandemic is £122m. £42m refund of FY20 corporate tax payments due to carryback of FY21 losses. Capital spending £323m lower than prior year reflects the deferral in the transformation schemes and other growth schemes. Funding from shareholders of £337m includes £300m of new shareholder loans and completion of previously planned direct investment in new car parks at MAN. Commitment to sustaining strong investment grade credit ratings drives the dividend policy - no dividends paid. £413m net proceeds received from the sale of non-core property portfolio and 50% Airport City JV to Columbia Threadneedle. £24.3m payment to purchase US business – airport parking reservation aggregator and distributor of airport car parking and associated travel booking options.

Covenants and Ratings

Cash mitigation measures and shareholder support maintains strong liquidity during COVID-19 with waivers and amendments of covenants secured to September 2022 following the consent solicitation concluded last month. MAG's long-term financing strategy continues to incorporate Baa1/ BBB+ ratings and conservative finance structure. Ratings confirmed by rating agencies in October 2020 and January 2021.

Prudent financing and dividend policy...

- Strategic financing response to COVID-19 successfully implemented. Actions taken to maintain underlying covenants and rating metrics over the medium term aligned with current Baa1/BBB+ ratings. Actions included comprehensive cash mitigation measures of c.£183m opex savings and £189m of capex in FY21, and injection of £300m of new capital by shareholders.
- MAG's funding plan has been fully executed with the £400m disposal of non-core property.
- MAG's long-term financing strategy continues to incorporate maintaining strong investment grade ratings and conservative leverage is core to that objective:
 - BBB+ (outlook negative) rating affirmed by Fitch in Oct'20
 - Baa1 (negative outlook) rating affirmed by Moody's in January'21
- The STID proposal, approved in June 2021, included waivers to Financial Covenants for an additional two calculation periods to 31 March 2022 and an amendment to the third period at 30 September 2022.
- MAG's continued strategic financial response to COVID-19 was strongly endorsed by its banks and bondholders with 98.9% voting, and 99.9% of those voting in favour of the proposed amendments.

Leverage: Net Debt / EBITDA

Interest Cover: EBITDA less Tax / Finance Charges

Successful Consent Solicitation

99.9% of voting secured creditors (98.9%) voted in favour of the STID proposal demonstrating the confidence of creditors in MAG's continuing COVID-19 financing response and the sound fundamentals of MAG's airports and their ability to recovery strongly

- On 29 April 2021 Manchester Airport Group Funding PLC launched a consent solicitation process to extend temporary amendments to its financing documents by a further one year.
- The STID proposal included waivers to Financial Covenants for the next two calculation periods (to 31 March 2022) and an amendment to the third period (30 September 2022).
- The successful outcome was announced on 3 June 2021.
- MAG's strategic financial response to COVID-19 was strongly endorsed by its banks and bondholders with 98.9% voting, and 99.9% of those voting in favour of the proposed amendments.
- This support is a part of the key package, following shareholder equity and significant cash mitigation measures taken by the business, which has put MAG in a strong position as the aviation industry restarts and recovers.

PART II – INTERNATIONAL TRAVEL UPDATE

UK Traffic Light System and MAG's legal challenge

MAG has successfully worked with the Government to reopen international travel on 17 May and introduce a risk-based 'traffic light system'. However, the green list of countries has seen major change since the system launched, and MAG is now leading a legal challenge against the transparency of the system.

The traffic light system

- MAG worked closely with the Government's Global Travel Taskforce, which reported to the Prime Minister on 9 April and led to the reopening of international travel on 17 May.
- Travel restrictions are now determined by a 'traffic light system', where countries are classified based on risk.
- While MAG has challenged the Government's advice against travelling to Amber countries as well as the need for so many different PCR tests, which are very costly for travellers, we have welcomed this risk-based approach to reopening travel.
- The Government committed to reviewing country classifications every three weeks, and the system itself on 28 June, 31 July and 1 October.

UK Government traffic light system

Red: Inbound passengers must quarantine for 10 days in a hotel. Tests are required before travel (lateral flow) and on Days 2 and 8 in the UK (PCR).

Amber: Inbound passengers must self-isolate for 10 days at home. Tests are required before travel (lateral flow) and on Days 2 and 8 in the UK (PCR).

Green: Inbound passengers do not have to self-isolate. Tests are required before travel (lateral flow) and before Day 2 in the UK (PCR).

Evolution of the Green list

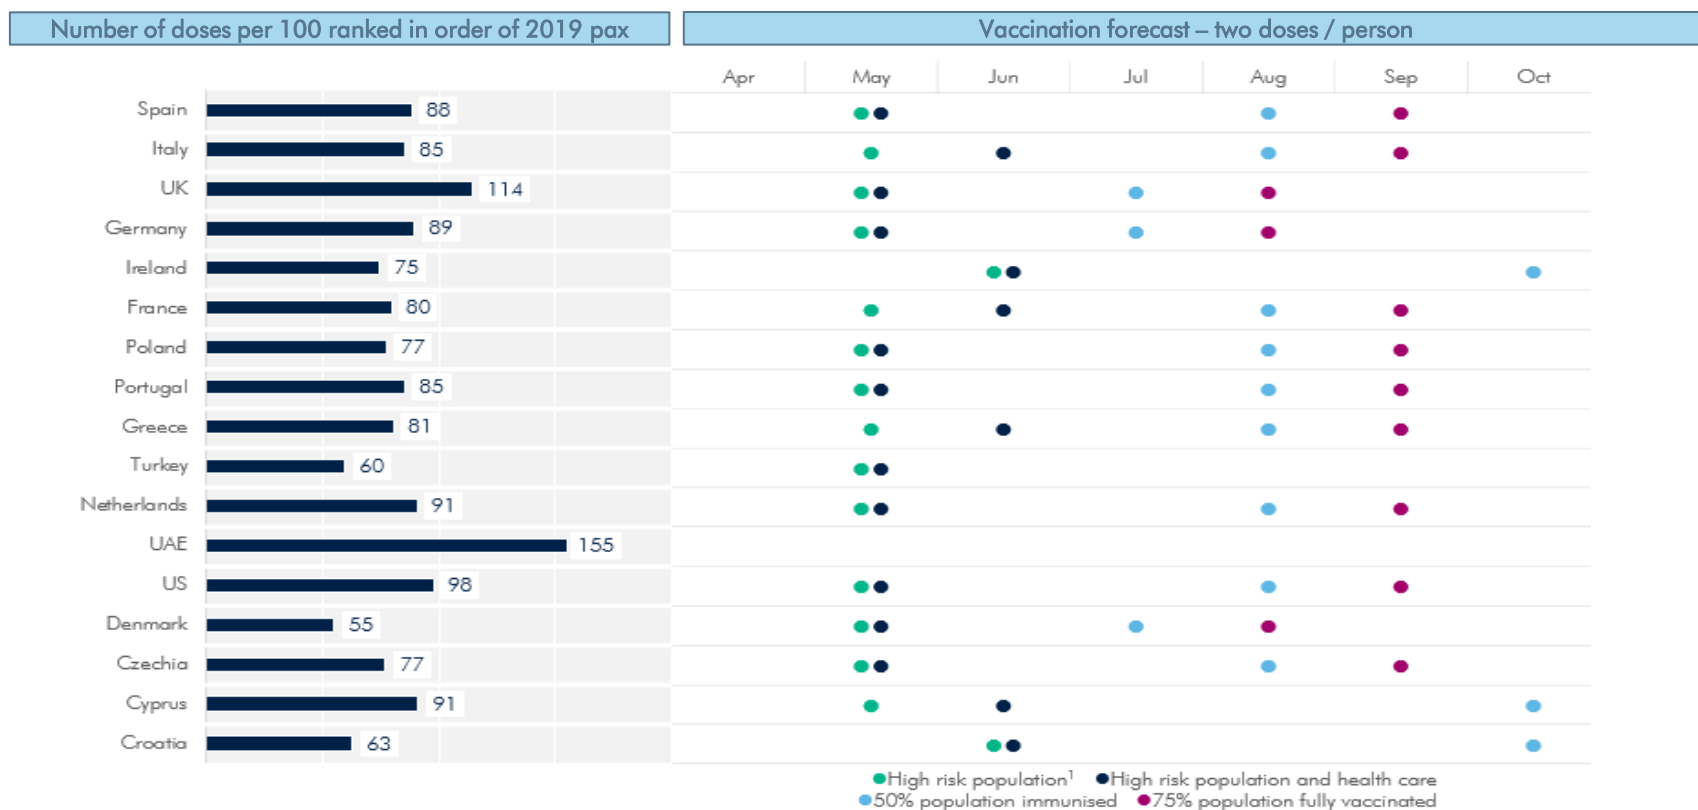

- The first set of country classifications was published on 7 May, and included Portugal on the green list. This indicated the Government's willingness to include major UK tourism markets in the lowest risk category. MAG saw immediate increases in traffic on routes to Portugal, demonstrating the pent-up demand for travel.
- However, the first review of the green list (3 June) moved Portugal onto the Amber list and left a Green list only consisting of small, remote markets or countries that are not accepting visitors from the UK.
- The traffic light list was further updated on 24 June, adding key destinations to the green list such as Malta, the Balearic Islands and destinations in the Caribbean. We are again seeing airlines lay on new routes and passenger demand to these destinations increase accordingly.
- The Government has also said it will introduce an exemption from quarantine for fully-vaccinated passengers arriving from Amber countries. More information about this policy is due in July. It has said it will withdraw its advice not to travel to Amber countries at the same time.

MAG legal action against the Government

- We have been unable to understand the rationale for how countries have been classified as green, amber or red, based on public data from sources such as the World Health Organisation and GISAID, and the limited data and methodology published by the Government.
- MAG has therefore launched legal action to seek transparency from the Government, calling for full publication of the data and methodology that has driven their decision. Five airlines have joined this action as interested parties – Ryanair, Virgin Atlantic, IAG, easyJet and TUI.
- The Court has accepted our claim is arguable and a hearing date has been scheduled for 9 July.

Vaccine Rollout

The UK has secured over 500 million vaccine doses and remains one of the leading countries in the vaccine roll out. All UK adults have now been offered the vaccine. International vaccine programmes have gathered pace and are now catching up with the UK's successful roll out. Airfinity's latest forecasts show that the majority of MAG's key destinations had fully vaccinated their high risk populations¹ by June and will have fully vaccinated 75% of the total populations by September.

Source: UK Government, Our World in Data, Airfinity, 30 June 2021. Airfinity is a science information and analytics company. Working with the entire ecosystem; pharma companies, governments, investors and media as provider of new life science intelligence.

Note: (1) High risk population is defined as those aged 65+ and people with certain comorbidities

PART III – LIQUIDITY UPDATE

FY22 YTD traffic performance and liquidity

The Group continues to maintain strong liquidity to cover the operating costs of the business, required capex and finance charges. Actual cash balances to June 2021 are ahead of projections shared with banks and bondholders as part of the recent consent solicitation process. Current liquidity position of over £450 million and expected to remain above £270 million for the six month period to December 2021.

- MAG published two scenarios with different dates for the lifting of international travel restrictions: a Management Case, assuming a June opening; and a Downside Case, based on a September opening. These estimates assumed pax for FY22 at 40% and 25% of pre-COVID levels respectively.
- In these scenarios the lifting of restrictions was a binary impact with subsequent pax forecasting being driven by other macro factors with clear Government signalling in respect of traffic light classification and criteria for each country.
- On 3 June, the Government's announced its first review of the travel system resulting in no further destinations being added to the green list, and Portugal moving from the green to the amber list with little transparency for its decisions.
- Despite this, pax in Q1 are in line with estimates, cash remains ahead of targets and minimum liquidity levels to December 2021 are estimated to be above £270m.

Traffic v Estimates					
PAX (% of Pre-COVID)	FY22 Q1	FY21 Q2	FY22 Q3	FY22 Q4	FY22 Total
Actual	6%	<i>Not Available</i>	<i>Not Available</i>	<i>Not Available</i>	<i>Not Available</i>
Management Case est.	6%	41%	55%	64%	40%
Downside Case est.	3%	5%	41%	63%	25%

Appendix - Progress made on our 5 year CSR strategy

MAG has a strong track record of working collaboratively with stakeholders to make our airports more sustainable, to build opportunity for our colleagues and to support local communities. Over the last 5 years we have made real progress, and as we begin to work towards our new objectives, it is important to reflect on what we have achieved

Appendix – Our 2020 CSR strategy

CSR at MAG has a dedicated Board Committee and its recent comprehensive CSR report is available on our website. Our new CSR Strategy, 'Working together for a brighter future' guides our future CSR work to ensure MAG's recovery from COVID-19 is sustainable and equitable, sharing the benefits of successful airports with the regions they serve.

STRATEGIC PRIORITY 1: ZERO CARBON AIRPORTS

MAG airports to be net zero carbon by no later than 2038

Transition to a fleet of ultra-low emission vehicles by 2030

STRATEGIC PRIORITY 2: OPPORTUNITY FOR ALL

An Employment Charter to ensure all colleagues can achieve their full potential

Airport Academies will support a minimum of 7,500 people over the next five years

STRATEGIC PRIORITY 3: LOCAL VOICES

New methods of consultation including youth forums at every airport

30% of colleagues to participate in local volunteering programmes

Disclaimer

The terms and conditions below set out important legal and regulatory information about the information contained in this presentation and all documents and materials in relation to this presentation (the “**materials**”) by Manchester Airport Group Investments Limited and its shareholders, affiliates or subsidiaries (the “**MAG Group Companies**”). No other third party has been involved in the preparation of, or takes responsibility for, the contents of the materials.

The materials are confidential and are being provided to you solely for your information and may not be copied, reproduced, forwarded or published in any electronic or physical form or distributed, communicated or disclosed in whole or in part except strictly in accordance with the terms and conditions set out below, including any modifications to them from time to time. The information contained in the materials has been obtained from sources believed to be reliable but none of the MAG Group Companies guarantees its accuracy or completeness.

EACH RECIPIENT AGREES TO BE BOUND BY THE TERMS AND CONDITIONS BELOW.

The materials are intended for authorised use only and may not be published, reproduced, transmitted, copied or distributed to any other person or otherwise to be made publicly available. The information contained in the materials may not be disclosed or distributed to anyone. Any forwarding, redistribution or reproduction of any material in whole or in part is unauthorised. Failure to comply with this notice may result in a violation of the applicable laws of the relevant jurisdictions. Any of the MAG Group Companies has the right to suspend or withdraw any recipient's use of the materials without prior notice at any time.

The information contained in the materials has not been independently verified. The MAG Group Companies are under no obligation to update or keep current the information contained herein. Accordingly, no representation or warranty or undertaking, express or implied, is given by or on behalf of the MAG Group Companies or any of their respective members, directors, officers, agents or employees or any other person as to, and no reliance should be placed on, the accuracy, completeness or fairness of the information or opinions contained herein. None of the MAG Group Companies, nor any of their respective members, directors, officers or employees nor any other person accepts any liability whatsoever for any loss howsoever arising from any use of the materials or their contents or otherwise arising in connection with the materials.

The information and opinions contained herein are provided as at the date of this presentation and are subject to change without notice.

Where the materials have been made available in an electronic form, such materials may be altered or changed during the process of electronic transmission. Consequently none of the MAG Group Companies accepts any liability or responsibility whatsoever in respect of any difference between the materials distributed in electronic format and the hard copy versions. Each recipient consents to receiving the materials in electronic form.

Each recipient is reminded that it has received the materials on the basis that it is a person into whose possession the materials may be lawfully delivered in accordance with the laws of the jurisdiction in which the recipient is located and the recipient may not nor is the recipient authorised to deliver the materials, electronically or otherwise, to any other person.

The materials do not constitute or form part of and should not be construed as, an offer to sell or issue or the solicitation of an offer to buy or acquire securities of the MAG Group Companies in relation to any offering in any jurisdiction or an inducement to enter into investment activity. No part of the materials, nor the fact of its distribution, should form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever. Any investment decision in any offering should be made solely on the basis of the information contained in the prospectus relating to any transaction in final form prepared by the MAG Group Companies.

Neither the materials nor any copy of them may be taken or transmitted into the United States of America, its territories or possessions, or distributed, directly or indirectly, in the United States of America, its territories or possessions. Any failure to comply with this restriction may constitute a violation of U.S. securities laws. The materials are not an offer of securities for sale in the United States. The MAG Group Companies do not intend to conduct a public offering of any securities in the United States. The securities issued under any offering may not be offered or sold in the United States except pursuant to an exemption from, or transaction not subject to, the registration requirements of the Securities Act.

This presentation is made to and is directed only at, and the materials are only to be used by, persons in the United Kingdom having professional experience in matters relating to investments who fall within the definition of “investment professionals” in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotions) Order 2005 (the “Order”), and to those persons to whom it can otherwise lawfully be distributed (such persons being referred to as “**relevant persons**”).

In respect of any material, none of the MAG Group Companies makes any representation as to the accuracy of forecast information. These forecasts involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results or developments to differ materially from those expressed or implied by these forecasts. No other persons should act on or rely on it.

The materials may include forward-looking statements. These forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The words “believe,” “expect,” “anticipate,” “intends,” “estimate,” “forecast,” “project,” “will,” “may,” “should” and similar expressions identify forward-looking statements. Forward-looking statements include statements regarding: strategies, outlook and growth prospects; future plans and potential for future growth; liquidity, capital resources and capital expenditures; growth in demand for products; economic outlook and industry trends; developments of markets; the impact of regulatory initiatives; and the strength of competitors.

The materials may contain statements about future events and expectations that are forward-looking statements. Any statement in these materials that is not a statement of historical fact is a forward-looking statement that involves known and unknown risks, uncertainties and other factors which may cause the MAG Group Companies' actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. No person should rely on such statements and the MAG Group Companies do not assume any obligations to update the forward-looking statements contained herein to reflect actual results, changes in assumptions or changes in factors affecting these statements.

The forward-looking statements in the materials are based upon various assumptions, many of which are based, in turn, upon further assumptions, including, without limitation, management's examination of historical operating trends, data contained in the MAG Group Companies' records and other data available from third parties. Although the MAG Group Companies believe that these assumptions were reasonable when made, these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond its control, and the MAG Group Companies may not achieve or accomplish these expectations, beliefs or projections. Neither the MAG Group Companies, nor any of their members, directors, officers, agents, employees or advisers intend or have any duty or obligation to supplement, amend, update or revise any of the forward-looking statements contained in the materials.

The information and opinions contained herein are provided as at the date of the materials and are subject to change without notice.
